Dear Mr. Weisberg:

Hope I spell your name right.
Hope these letters reach you.
Back in August when you were on WCAU — my wife and I were traveling to Oxford, N.C.

If I were to write all the nice things about the way you handled yourself during the program you would think I was buttering you up — take my word, you have my utmost respect and admiration.

One question:

Check the eye charts of Oswald to see if he had the focusing power to get off those shots? Could a good opthalmologist tell anything from Oswald's examination?

What is your background — lawyer?

Once again I must complement you on the mind and precence of same.

I have tried in so many stores to order your book — but without success. Could you send me a copy — C.O.D. — or I'll send you a check — I would do it now but I wanted to be sure of your address first.

Your book has been discussed on some stations in this area.

I am quite interested why some of the big publishers wouldn't handle it — I can imagine one reason.

I offer you an invitation - and if possible you accept it — when and if business brings you to Indiana you come and stay with us. Kokomo is 50 miles north of Indianapolis. My wife said regarding the invitation — "you (me) wouldn't let the man (you) rest - you would keep him up all night discussing the assassination.

I promise if you do accept our "hospitality" — I won't keep you up to late.

Again, thank you for not only a pleasant evening but a very enlightening and intelligent one.

Anxiously awaiting your book and reply

Best wishes
'Bud' Ward

Kingston Green apt C-25
Kokomo, Ind. 46901

P.S. Please autograph 'Whitewash' I don't normally ask such a thing - but this is an exception. I think both of us love history — but history that is truthful.
